

# Overview of Xpert Unit Summaries

Xpert Unit Summaries will summarize Text and Video Transcript text for learners at the end of a unit to reinforce the information that was contained in the unit.

When enabled by the course team, learners only need to click the **Summarize button** at the bottom of the unit to see a condensed summary of the content.

The screenshot shows a video player control bar at the top with a play button, a progress indicator at 0:00 / 0:00, a speed control set to 1.0x, a volume icon, a full screen icon, a Creative Commons icon, and a quote icon. Below the control bar is a 'Transcripts' section with two download links: 'Download SubRip (.srt) file' and 'Download Text (.txt) file'. Below the transcripts is a 'Summarize' button with a document icon. At the bottom of the screenshot is a 'Xpert Unit Summary' card. The card has a title 'Xpert Unit Summary' with a 'Beta' badge and a close button. The main text of the card reads: 'In this course, students at the University of Queensland in Australia watched online videos before coming to class for discussions and experiments. The goal was to create a unique on-campus experience that couldn't be replicated online. The instructors wanted students to engage with the content and each other in person. They believed that face-to-face discussions were important for learning. The course had 75,000 people from all over the world enrolled, which allowed for diverse perspectives and examples. Overall, the course aimed to provide an interactive and engaging learning experience both online and in person.' At the bottom left of the card is a 'Powered by OpenAI' logo and text. At the bottom right are thumbs up and thumbs down icons.

Learners can learn more about how the summary was generated by clicking the **information icon below the summary**.

Learners can leave feedback about the summary using the **thumbs up and down** icons at the bottom right of the summary card. This feedback is only shared with edX for the purpose of improving the tool.

**Note**

Not all pages have the Summarize button, as the system automatically selects which units are eligible for summarization based on the amount of text in the unit.
